Mr. Stansfield Turner
Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. Turner:

Thank you for your letter of December 20 inviting me to join in a discussion of relationships between the academic and intelligence communities. I am very much in favor of discussions of this kind, believing that the establishment and conduct of proper relationships are very much in the national interest. Unhappily, however, the date of February 15 is impossible for me. I chair a major meeting that day which simply cannot be rescheduled, and that meeting is followed by important Trustee meetings in New York.

Sincerely yours,

William G. Bowen
